Students can participate in the main and additional calls simultaneously; however, they may select no more than 5 universities in total across both calls.

If a student participates in both calls and receives a positive response for within the additional call before the main call concludes, their candidacy will no longer be considered for the main call. On the other hand, if the student is rejected for the additional call but has a passing score, they will be considered for the main call. If the student does not receive a final decision from the additional call before the end of the main call but has enough points for the main call, they may choose to either accept the result of the main call or wait for the outcome of the additional one.
